REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: a cyclohexapeptide compound of formula I, and processes of producing the same are not reasonably taught or suggested by the prior art of record. The prior art of record, including those recited in the previous Actions under 35 USC 102 and 103, did not teach that positions R8 and R9 could be –CH₂-Sec.amine. However, Applicant had previously claimed, in the alternative, that R8 and R9 could simultaneously be –H, and the prior art of record expressly taught that positions R8 and R9 could include –H.

It was noted in the Final Office Action (10/19/05), that claims 4-5 were objected to, but would be allowable if amended into independent form, since the limitations therein required that at least one of R8 or R9 be –CH₂-Sec.amine. On January 18, 2006, Applicant filed an RCE and amended independent base claim 1 to incorporate the former, and now positively claim that one of positions R8 or R9 must be –CH₂-Sec.amine. In light of the amendments, the prior art of record no longer reasonably teaches or suggests a cyclohexapeptide wherein position R8 and/or R9 must be –CH₂-Sec.amine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-7 and 9-10 are allowed.
